PREFACE.

This, the Eighth issue of the "I. M. D. Annual" appears at a later date than heretofore. The month of January—the usual time for the appearance of Annuals—would not be a suitable one for the I. M. D., because the changes and new registrations of cars begin mainly about May or June, when the fine weather comes on. If issued before these new registrations the Directory portion of the book would be very soon out-of-date. Therefore, allowing for the time necessary for the revision and the very considerable work of editing and printing, we make our eighth bow in July.

One or two other points may be noted in passing. Firstly, we have made a departure, not without some natural reluctance, from the colour of our cover. Bright yellow is so identified with motoring—we have no idea why—and, as it is superior technically for the printing, we have adopted it in lieu of our original green and white. Also as the 1911-12 edition because of its size was somewhat unwieldy, we have printed this issue on a much thinner paper. We hope these changes in outward semblance will meet with our readers' approval.

As usual we would draw attention to the specially valuable Legal Section. It is unique.

The effects of the Finance Act of 1910 is still more apparent in the lists, and the efforts of the various County Councils to see that the duties are paid, are most strenuous than before. Let us hope that the state of the roads will show a corresponding improvement.

The year's total cars and cycles is 12, 483 : comprised of 6, 692 cars, cycles 5, 791. Last year:—Total 9, 169. Cars 5, 058, cycles 4, 111; Total increase 3, 314, increase of cars 1, 634, in cycles 1, 680. In 1905 the total number of cars and cycles registered was only 2, 163, giving an increase of 10, 320, or 477% in seven years.

The best thanks of the Editor are due to all the Secretaries of County Councils and Town Clerks who have assisted in revising the lists ; also to Mr. James Egan, Mr. William Christy, Dr. George I. Mackesy, Mr. E O'F. Nugent, Mr. W. J. Greer, Mr. Lachlan MacLaine, Mr. Fred Walker, Mr. A. D. Allen, Messrs. H. G. Ferguson, D. Corbett Wilson, Vivian Hewitt, J. A. Moran, C. E., H. McKeown, and to Mr. J. J. Simington, Editor " Irish Times. "

EXPLANATIONS OF ABBREVIATIONS, &c.

The names in the Directory are arranged in Counties and County Boroughs, in alphabetical order as given in the Schedule of the Registration and Licensing Order. By running the thumb along the right-hand top corner of the book any index mark of County can be easily found by means of the large type. The six County Boroughs are at the end of the list. At the head of each County will be found the total number of cars and cycles therein registered. The letters opposite each name denote the description of motor. The following are the letters used and their meaning:

C=Car. CH=Charabanc. B=Cycle. T=Tricycle. TR—Tricar. Q=Quadricycle.
 L=Lorry. SL=Steam Lorry. SC=Steam Car. DC=Dog Cart. MP=Motor Plough.
 MFP=Motor Fire Pump.

REFERENCE TABLE OF MARKS.

These are arranged alphabetically for the whole Kingdom, those for Ireland and Scotland are so marked, and where not otherwise stated County Council is referred to.

HORSE POWER OF MOTOR CARS.
REGULATIONS MADE BY THE TREASURY FOR THE PURPOSE OF
SECTION 86 (2) OF THE FINANCE (1909-10) ACT, 1910
(10 Edw. VII. c. 8).

The Lords Commissioners of His Majesty's Treasury, in pursuance of Section 86 (2) of the Finance (1909-10) Act, 1910, and of Section 2 of the Rules Publication Act, 1893, hereby certify that on account of urgency the following regulations should come into immediate operation, and accordingly make the following regulations to come into operation forthwith as provisional regulations : —

1. For the purposes of these regulations the horse-power of any motor car deriving its motive power wholly from a steam, internal-combustion or other engine worked by a cylinder or cylinders shall be taken to be: —

(a) in the case of a single-cylinder engine the horse-power attributable to the cylinder of the engine.

(b) in the case of an engine having two or more cylinders the sum of the horse-powers attributable to the separate cylinders.

2. The horse-power attributable to any cylinder shall be deemed to be proportional to the square of the internal diameter of such cylinder measured in inches, and shall be determined according to the number of square inches contained in such square, the unit being taken to be:—

(a) in the case of a single-acting cylinder having a single piston, one horse-power for every $2\frac{1}{2}$ square inches ;

(b) in the case of a single-acting cylinder having two pistons, one horse-power for every $1\frac{3}{5}$ square inches ;

(c) in the case of a double-acting cylinder having a single piston, one horse-power for every $1\frac{1}{4}$ square inches.

3. Any motor car deriving its motive power or any part of its motive power otherwise than from an engine worked by a cylinder or cylinders shall be deemed to be of a horse-power exceeding 12 but not exceeding 15, provided that, where the motive power is derived in part from an engine worked by a cylinder or cylinders, the horse-power of the car shall not be deemed to be less than the horse-power attributable to the cylinder or cylinders of such engine.

4. Where it appears that, in consequence of the exceptional design or construction of the engine of any motor car, the horse-power as calculated under the foregoing rules is substantially less than the power which the engine is actually capable of developing, the horse-power of the car shall for the purposes of these regulations be taken to be the same as that of a car of equid efficiency deriving its motive power from a cylinder engine of the ordinary type.

5. In measuring cylinders and calculating horse-power fractions of an inch and fractions of a unit of horse-power are to be taken into account.

JOHN W. GULLAND.

PERCY H. ILLINGWORTH.
